

GU10 HOLDER

PRODUCT INFORMATION

- Designed for convenience, the SIMON GU10 holder allows quick installation and is universally compatible with LED and halogen bulbs, offering adaptable lighting solutions.
- Reduce maintenance costs with the ability to replace just the bulb, not the whole fixture, and enjoy hassle-free installation with mains voltage compatibility—no extra transformers required.

BENEFITS

- Offers versatile lighting options, whether you need bright, directional light for a kitchen or a precise spotlight to showcase products.
- Designed for a wide range of environments, including homes, offices, and restaurants.
- Effortlessly adapt your lighting by switching GU10 bulbs to alter color, brightness, or beam direction.
- Quick twist-and-lock installation, with holders compatible with mains power without extra transformers.

FEATURES

- Current 2A.
- Input Voltage AC250V.
- Ingress Protection IP20.
